Art Unit: 2185

1. This action is in response to amendment C received on October 29, 2003.

Claims 1-57 and 73-87 are pending. Claims 58-72 have been canceled and claims 73-87 have been added.

2. The text of those sections of Title 35, US Code not included in this action can be found in a prior Office Action.

3. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

A) The declaration fails to contain a statement that **all** errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414. The declaration states that "this error" arose without any deceptive intention.

B) The reference in the declaration to "the enclosed preliminary amendment" is improper because the preliminary amendment was not enclosed with the declaration. The preliminary amendment was received on February 14, 2002 while the declaration was received on June 14, 2002. Applicant is required to make accurate statements in the declaration. Correction is required.

C) The added claims do not correct the identified error in the declaration. The added claims appear to be narrower than claim 43 in that they recite the pass gate and that the output node is coupled to ground. In addition, the declaration states that applicant's have the right to claim that "other means" may be used in the method for generating a pulse. However, applicant's have failed to describe what other means are being used,

where there is support in the specifications for using other means and how the new claims correct the error by reciting the other means. Therefore, the declaration does not clearly identify an error that is being corrected by the reissue claims.

4. Claims 1-57 and 73-87 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

5. Claims 1-57 and 73-87 contain allowable subject matter. However, the claims remain rejected under 35 U.S.C. 251 as described above.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis M. Butler whose telephone number is 703-305-9663. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-3900.
